Construction underway at Good Shepherd Catholic Primary School, Springfield Lakes

Work has commenced on the construction of a new Catholic primary school at Springfield Lakes.

Good Shepherd Catholic Primary School will open at the start of next year, offering classes in Prep to Year 3. Years 4, 5 and 6 will be opened progressively in following years.

The co-educational school will serve Springfield Lakes, New Beith and Greenbank, and is located on Springfield Central Boulevard, adjacent to the intersection with Grande Avenue, Springfield Lakes.

Enrolment applications for 2013 are now being accepted, and Principal Judith Seery has started conducting enrolment interviews at the school’s pre-opening office, in the Spring Lake Metro complex.

Earthworks and preliminary construction are now underway at the school site, which will soon be officially blessed by Archbishop Mark Coleridge. Construction of stage one will be completed later this year.

The school’s four hectare site has been master-planned to provide high-quality, technologically-rich flexible learning facilities which provide a welcoming, safe and developmentally-appropriate environment for students.

Good Shepherd Catholic Primary School is expected to open next year with around 100 students. Ultimately, the school’s masterplan indicates it will be a four stream school in all year levels, accommodating over 700 students as greater Springfield’s population continues to grow rapidly.

Enrolment enquiries should be directed to the school’s office on 0417 226 159, or application materials can be accessed on the schools’ website www.goodshepherd.qld.edu.au
